

# The most trusted name in High Pressure Cleaning

## CABINET High Pressure Cleaners

A Cabinet mounted high pressure washer is ideal for static cleaning stations such as car washes, truck washes, abattoirs etc.

The cabinets are manufactured from durable 304 stainless and are available as floor or wall mounts. The electric pressure washer system is enclosed in the cabinet with doors for easy accessibility for maintenance and repairs.

The models listed are the most popular cabinet mounted high pressure cleaners. Many of the mobile pressure washers can be converted to a cabinet unit.

### Features:

- Available as floor or wall mount
- Stainless steel chassis and covers with floor or wall mounting holes
- Three piston pump with ceramic plungers and brass manifold
- Pump and motor coupled using a bell housing
- 5m Power supply cable (15A plug with 230v units)
- Inlet suction filter
- Pressure regulating valve
- Header tank with float valve and low-level cut-out switch
- 10m high pressure hose
- Gun, lance and standard nozzle

Model	Pump	Volume	Pressure	Motor	Pump Speed	Coupling
<b>WALL MOUNTED CABINETS</b>						
<i>230V Units</i>
